Going and Coming of El Paso People and Others

T. W. Hunt, a well known traveling man, left for Albuquerque this noon.

Dr. Wegfarth returned from his eastern trip this morning over the T. & P.

Jesse Grant, son of the general, passed through this morning from the City of Mexico en route to New York to attend the ceremonies connected with the completion of his father's mausoleum.

Mrs. J. W. Everman, wife of the assistant general manager of the T. & P., and children arrived this morning from Dallas and will be at the Pearson for about a week.

Mrs. Whitten and son Frank, formerly of El Paso, but at present residing in Albuquerque, New Mexico, returned home this morning after a pleasant week's visit with friends in this city.

Sir Henry Deering, the British minister to Mexico, and family came north this morning in Joe Thompson's private car over the Central, and continued north over the Santa Fe en route to London where he will remain until fall. Then he returns to Mexico. He told a HERALD reporter this morning, that he was much pleased to see so much English capital coming into Mexico. There are many opportunities there for excellent investment, and the country is being rapidly developed.

A Gold Democrat Causes Trouble.
WASHINGTON, April 17.—The iceberg which is creating a coolness between Platt and McKinley is said to be Secretary Gage. The secretary has a soft place in his heart for the gold democrats and has a little patience with the claims of Platt's machine republicans. The fight still centers about the first of the assistant sub-treasury. Conrad N. Jordan, a gold democrat, is the present incumbent and Elie H. Roberts is Platt's candidate for the place. The gold democrats of Wall street are supporting Jordan, and Secretary Gage is very friendly to these gold democrats.

Forcing Turkey to War.

LONDON, April 17.—Dispatches from Athens at noon today confirmed the report that an engagement has taken place near Nezeros, in Thessaly, between the Turks and Greeks. At Athens a peaceful conclusion of the difficulty is regarded as almost hopeless. It is perfectly certain that the irregulars will again invade Macedonia in order to compel the Porte to declare war.

The Texas & Pacific has made a rate for the firemen's convention of one fare for the round trip.

The district court jury in the Jack Shea burglary case was out this afternoon.

SOME FUN IN CONGRESS.

Bailey Lost His Head and Used "Woman" Talk.

DeARMOND TALKS BACK.

Jerry Simpson Creates Amusement by Declaring a Motion to Adjourn Debatable. The Democratic Leader Calls His Opponents Liars and Talks Like Fighting.

WASHINGTON, April 17.—President McKinley sent to the house today a special message urging congress to take early action and accept in the proper manner, the invitation from the French government to our government to be represented at the Paris exposition in 1900.

Mr. Bailey, of Texas, the rose to a question of personal privilege. He read from an editorial charging him with trying to lead Reed, and bitterly denounced the author as a liar and said that all men engaged in circulating such stories about him were infamous liars. Bailey contended that the republican party were riding to their death on the tariff and standard. He said that if the Cuban resolution was to come from the senate declaring the insurgents should have their liberty, he would urge intensely for immediate action by the house.

Dingley then moved to adjourn until Wednesday.

Blair tried to offer a resolution in reference to the French message. Mr. Simpson then got the floor and said a motion to adjourn to a certain day was debatable. "The chair thinks not," drawled the speaker dryly, the house being much amused.

Speaker Reed ruled once more against Simpson, and Simpson appealed from the decision and the motion to table was carried overwhelmingly.

Mr. DeArmond of Missouri replied to Mr. Bailey. DeArmond contended that the people who elected democrats to congress never intended they should co-operate in any manner with the republicans.

Finally Dingley got his motion to adjourn and talk was shut off until Wednesday.

Dr. Hunter Indicted.
FRANKFORT, Ky., April 17.—An indictment was returned this morning by the grand jury which has been investigating the ordinary charges in contest for United States senator, against W. Godfrey Hunter, his managers, Wilson and Frank, and Gaines and Tanner, the men who brought the charges. All are included in one general indictment charging them with conspiracy to bribe members of the legislature.

It is predicted that this means the election of Martin, gold democrat, or Judge Holt, republican, to the United States senate.

Roll call was dispensed in the joint assembly today, and one vote cast for Hunter, Martin, Boyle and Stone and the assembly immediately adjourned.

The Hide and Wool Schedules.

WASHINGTON, April 17.—The republican members of the senate committee on finance are gradually getting their amendments to the Dingley tariff bill into shape and are now confident of being able to report the measure to the full committee in next week. The committee is practically determined to disregard the emphatic protests of the leather managers of the east and place a duty of one cent a pound on hides. The wool schedule is being readjusted on a basis of eight or nine cents a pound on first and second class wools respectively. Both propositions will be fought vigorously in the senate.

Roosevelt Resigns.

NEW YORK, April 17.—Police Commissioner Theodore B. Roosevelt today sent in his resignation to Mayor Strong. His letter of resignation was very long and says: "For the first time the police force has been administered without regard to politics, and with honest and resolute purpose to enforce the laws equitably, showing favor to no man. The old system of blackmail and corruption has been almost entirely broken up, and we have waged against crime and vice more effectively than ever before."

To Fool Religion.

CHICAGO, April 17.—An unique institution is to be established in Chicago, the "University of Applied Christianity." The object is to unite under one practical and one institution, all sorts of practical religious and philanthropic enterprises. Over \$200,000 has already been pledged to the cause. The plan is to build a great cathedral similar to those in Europe, but having class rooms, study rooms, reading rooms, club rooms, lecture rooms, etc., as well as an immense auditorium.

Platt Favors Taunamy.

NEW YORK, April 17.—In an interview Senator Platt supports Edward Lauterbach's declaration that it would be better for the republican machine in New York to have a Taunamy mayor for Greater New York than to have another non-partisan like Strong, and that the republicans would therefore make no deals with the reformers.

The Lady Odd Fellow.

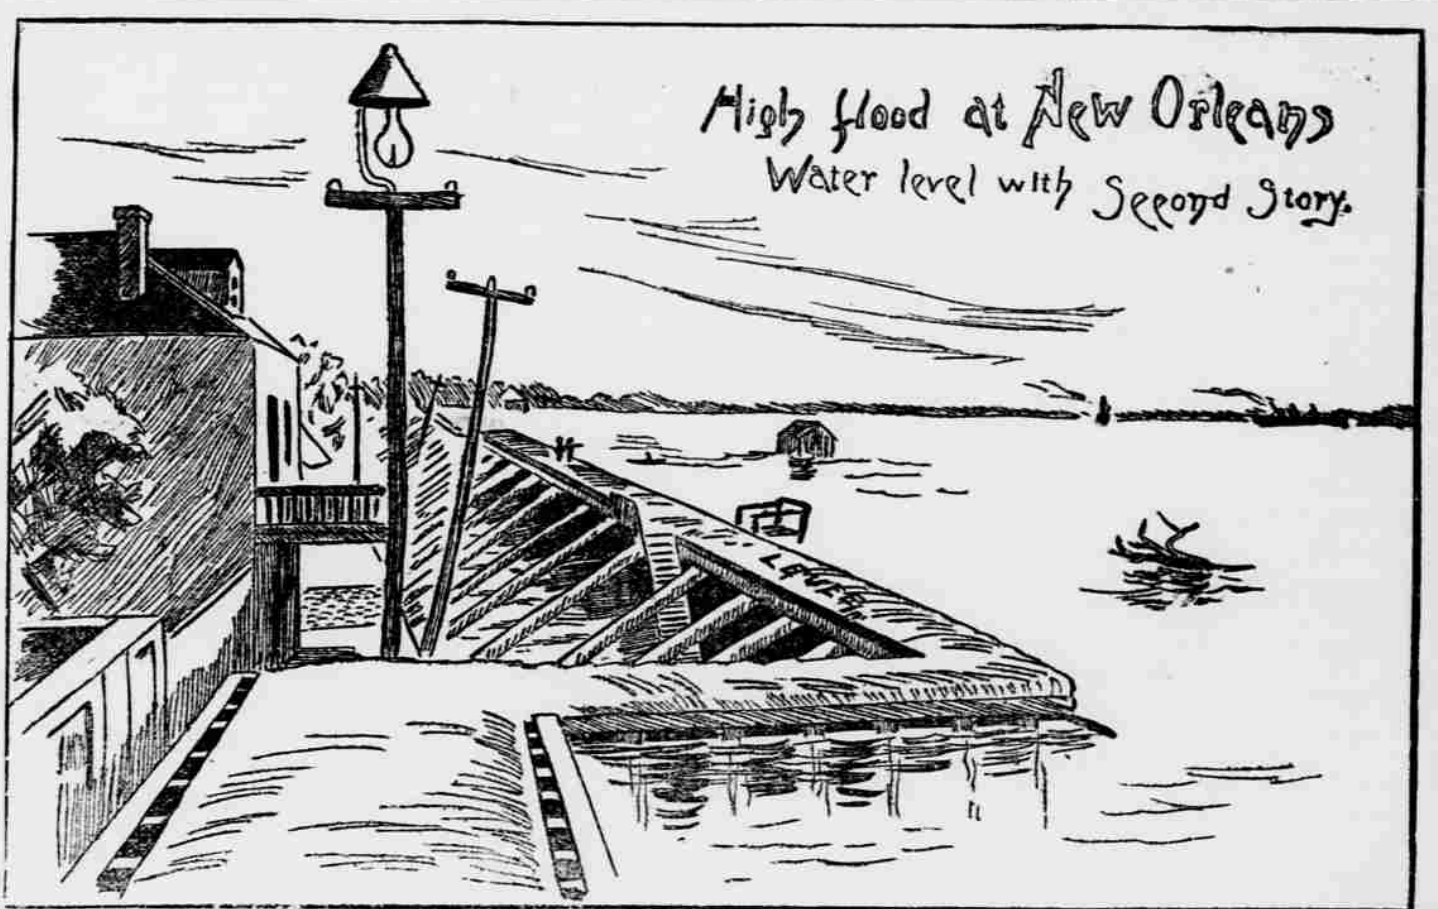

LONDON, April 17.—Mrs. Randall Davidson, wife of the bishop of Winchester, has been initiated a member of the Royal Lady Mary college of Odd Fellows, at Farnham. It is said that there was no deviation from the regular ritual on account of the high standing of the novice in society and the church.

You Must Answer, Sah.

LEXINGTON, Ky., April 17.—An encounter is predicted between Green Keller, editor of the Carlisle Mercury, and Desha Breckenridge, son of the noted W. C. P. Breckenridge. Keller published a letter to Breckenridge, signed name to Judas Iscariot. Breckenridge responded in a like vein. Both men are fighters.

The Greco-Turkish War.

LONDON, April 17.—Dispatches from the Greco-Turkish frontiers this morning are not of a reassuring character. Fighting between the Greek regulars and a detachment of Turkish troops sent to intercept them, continues with varying success on either side.

High flood at New Orleans
Water level with Second Story.

Levees Will Give Way.

FORT WAYNE, Ind., April 17.—Capt. Derby, of the United States engineering corps at New Orleans, sent a bulletin this morning to the Mississippi give way if the river rises. The river commission stating that the message says the levees cannot stand further pressure and a serious disaster was extremely critical. The levee will be feared.

Chicago's Special Complaint.

CHICAGO, Apr 17.—Local physicians have had their hands full during the past two or three weeks with an epidemic of what is characterized by the profession as "malaria neuralgia," and which has claimed its thousands of victims without regard to race, color or previous condition of servitude. The symptoms of the complaint, which is supposed to have had its origin from the damp winter and the lack of sunshine since the beginning of the year, are a general depression and debility of the system, accompanied by an excruciating neuralgic pain in the head, generally starting at the back of the neck and moving around the base of the brain to the right or left eye.

Will Play the Foreigners.

SAN FRANCISCO, April 17.—There will be little spare room in the slating portion of Central park tomorrow, when the Australian baseball players who arrived here a week ago inaugurate their trip around the world with a match with the California Olympics. Considerable interest is manifested in baseball circles concerning the methods of play of the Australians, and the crowd is sure to be the largest ever drawn out by a baseball game in this city. The visitors have been closely following the practice games of their opponents and admit that they have learned a thing or two in the short time they have been here.

Trained Nurses For Crete.

NEW YORK, April 17.—In view of the cable dispatches from London to the effect that the expedition of English nurses to Crete was to be financed by Lady Henry Somerset, the recent appeal of the latter to Miss Frances Willard for a contribution of fifteen hundred dollars from the Armenian fund, and which met with a prompt response, has created considerable comment among members of the Woman's Christian Temperance Union and kindred organizations throughout the country.

McKinley Will Act.

WASHINGTON, April 17.—There is a position to know say that during the trip on the Dolphin last week, President McKinley gave several hours uninterrupted study to the Cuban question, and from this evolved a general policy which involves sooner or later the recognition of Cuban's insurgents, and then to use good office of the United States to bring about peace with honor both to Spain and Cuba.

Sentenced to Hang.

GEORGETOWN, Del., April 17.—James M. Gordy, charged with the murder of Mrs. Mary Lewis, of New York, was today sentenced to be hanged on June 11. The body of Mrs. Lewis was found floating in the Delaware river. Gordy had been calling on her flat in New York, which she left to marry him.

Jumped Into the Rapids.

NIAGARA FALLS, April 17.—At noon today a man twenty-five years old and unknown here, leaped from a carriage over the railing of the Niagara bridge, into the rapids below. The river was full of ice and the body was dashed to pieces. The suicide was well dressed.

The Lone Fisherman Dead.

BALTIMORE, April 17.—James S. Madril, formerly a pantomime actor, died while undergoing an operation here. He was 90 years old and was the original "Lone Fisherman" creating that part when "Evangeline" was first produced.

Suspected of Murder.

MANCHESTER, N. H., April 17.—A special from Somersforth says a well known young man of that city is suspected of the murder of Bank Cashier Stickney. The man has been absent from the city since the crime.

Crossed the Frontier.

ATHENS, April 17.—News that the Turks have crossed the frontier and fighting occurred has caused great excitement here. Enthusiastic crowds throng the streets awaiting further news from the frontier.

General Grant's Body Moved.

NEW YORK, April 17.—General Grant's body was moved to the new sarcophagus at his new monument this afternoon.

Sonator Hanna's Mother.

ASHVILLE, N. C., April 17.—Senator Hanna left for Cleveland this afternoon, with Mrs. Hanna, his mother's body.

THE LEVEES BREAKING.

Millions of Gallons of Water Pouring Over the Valley.

PEOPLE ARE FLEEING.

The Bedford Levee Has Given Way and the People are Seeking Shelter in High Places—Whole Towns Will be Washed Away by the Floods.

NATCHEZ, Miss., April 17.—There is a break in the Bedford levee and millions of gallons of water is pouring into the delta and there is no hope now for any part of it to remain.

VIDALIA, La., April 17.—The greatest excitement prevails here, and every one is making arrangements to move since the break in the Bedford levee. The people know the town must go under now, even if the levees hold.

Sending Tents.

WASHINGTON, April 17.—The war department has telegraphed orders this morning to the depot quartermaster ordering him to send 420 tents by rail as soon as possible to the mayor of Vicksburg to shelter refugees who are reported pouring into that city and are forced from their plantations by the breaking of the levees.
